Please contact Unitrunk's technical department for bespoke configuration.

Weatherproof Trunking

The IP65 trunking is constructed with outwardly turned flanges and provided with an internal sleeve coupling which allows it to be cut as necessary on-site.

Bonded gaskets are fitted throughout. The flange covers are secured by bolts and both the trunking and cover are manufactured from hot-dip galvanised sheet steel to either BS EN 10346 or BS 1461.

A complete range of weatherproof trunking fittings is available on request.
